

***A special Diamante SV for the 2022 Elite Slovenian champion,
Kristijan Koren.***

Matej Mohoric's successor, the world-class Slovenian cyclist Kristijan Koren, will race on a Diamante SV created especially for him, with a customized livery that celebrates the colors of his nation, after his triumph in the Slovenian Elite national champion, on June 26th, 2022.

In the land of the great Slovenian riders like Tadej Pogačar, Matej Mohorič and Primož Roglič, Adria Mobil Cycling's athlete Kristijan Koren won the road cycling Elite national championship on the saddle of his Diamante. After winning the national road championship cat. Elite on 26 June 2022 in Maribor, the Slovenian rouleur is ready to face the next season on a totally customized Diamante SV. The Diamante SV, the thoroughbred from Basso devoted to speed, has been chosen by the Slovenian pro team Adria Mobil for the 2023 season. Kristijan Koren, born in 1986, is the experienced man ready to lead the team after a long career at the top of world cycling. A professional since 2010, the Slovenian cyclist took his first steps as an amateur in Italy, with the Bottoli-Nordelettrica-Ramonda from Vicenza, before moving on to the top levels of the cycling world in Liquigas-Doimo.

The black background allows for contrast with the colors of the Slovenian flag (white, blue and red) placed on the sides of the frame on the head tube and seat tube, highlighting the national emblem. On the top tube, near the seat post, "Slovenija" is written. The livery is created using Basso Pigment, an innovative paint solution in which the 3D structure of ceramic nanoparticles increases water repellency and reduces porosity to make the livery stronger, more aerodynamic and resistant to contaminants.

The race bike will mount Campagnolo Super Record 12V EPS and Campagnolo Bora Ultra WTO wheels.

The handlebar is, inevitably, Levita, the Diamante SV component for unprecedented handling: stiff, light and ergonomic. Levita redefines the concept of driving precision in a concentrate of technology and aesthetic purity.

The union between the best Basso bike and the expert Slovenian rouleur, ready to express the best of both in this new season.
